

Strensall 2024

Abortiporus biennis

Amanita fulva

Amanita muscaria

Amanita rubescens

Ampulloclitocybe clavipes

Boletus edulis

Calocera cornea

Calocera viscosa

Claviceps purpurea

Clitocybe delbata

Coprinopsis jonesii

Coprinus comatus

Cortinarius hemitichus

Entoloma conferendum

Erysiphe alphitoides on oak

Fistulina hepatica

Flammula alnicola

Fomes fomentarius

Gymnopilus penetrans

Gymnopus dryophilus

Gymnopus inodorus

Hebeloma crustuliniform

Helvella lacunosa

Hygrocybe conica

Hygrophoropsis aurantiaca

Hypholoma elongatum

Imleria badia

Laccaria amythystina

Laccaria laccata

Lactarius blennius

Lactarius tabidus

Lactarius torminosus

Leccinum aurantiacum

Leccinum cyanobasileucum

Leccinum scabrum

Leccinum varicolor

Lycoperdon perlatum

Mycena acicula

Mycena bulbosa

Mycena capilaripes

Mycena galopus

Mycena leptcephal

Parasola plicatilis

Paxillus cuprinus

Phaeotremella frondosa found on birch foliacea is conifer species

Piptoporus betulinus

Pluteus cervinus

Pluteus pouzarianus

Psilocybe semilanceata

Ranaeolus acuminatus

Rhopographis filicinus on bracken

Russula aeruginea

Russula betularum
Russula caerulea
Russula claroflava
Russula emetica
Russula foetens
Russula graveolens
Russula nitida
Russula ochreoleuca
Russula velenovskyi
Russula versicolor
Scleroderma citrina
Scleroderma verucosum
Suillus bovinus
Suillus luteus
Suillus varigata
Trametes versicolor
Tricholoma fulvum
Tubaria conspersa
